

Stage 9 — Traffic + Conversion Assets

Product: DestinyLens

Date: May 25, 2026

Product Positioning (Corrected)

DestinyLens is 3 things:

1. **Calculator** — 9 questions → your exact daily/weekly/monthly/yearly number
2. **Visual Dashboard** — your dream life represented visually with progress tracking
3. **Daily Tracking Mechanism** — real-time income connections + manual entry to see progress daily, weekly, monthly, yearly

Price: \$47 one-time

Bonuses: \$405 value

- Dream Life Planner PDF (\$27)
 - Income Connection Setup Guide (\$47)
 - The 90-Day Sprint Template (\$97)
 - Private Community Access (\$197/yr)
 - Dream Life Visualization Audio (\$37)
-

A) Organic Assets

1. Primary Launch Post

I built a system that shows me EXACTLY how much I need to earn per day to live my dream life.

Not per month. Per DAY.

\$3,937/day = oceanfront home in Sayulita, Land Rover Defender, personal chef, 6 weeks travel/year.

DestinyLens calculates your number in 9 questions.

Then gives you a VISUAL DASHBOARD to track your progress daily, weekly, monthly.

Not manifestation. Measurement.

destinylens.io

2. Follow-up Posts (Days 2-6)

Day 2 — Problem Agitation

Vision boards never worked for me.

I'd paste pictures of my dream life then... nothing. No number to hit. No scoreboard. No daily target.

DestinyLens changed that:

1. Calculate your exact daily number (mine: \$3,937)
2. See your dream life VISUALLY on a dashboard
3. Track income daily/weekly/monthly against that target

Suddenly every hour has a purpose.

destinylens.io

Day 3 — Mechanism

The shift from "I want abundance" to "I need \$287/day":

That's when everything changes.

DestinyLens gives you:

- Your exact number (daily, weekly, monthly, yearly)
- A visual dashboard showing your dream life
- Real-time income tracking (Stripe, PayPal, manual)
- Progress percentage updated daily

You stop hoping. You start measuring.

destinylens.io

Day 4 — Social Proof

My friend thought she was "failing" at her dream life.

Ran her numbers on DestinyLens:

She needed \$287/day. She was already at \$240.

She was 83% there and didn't know it.

The dashboard showed her exactly where to focus. One income connection later, she's on track.

Your number might be closer than you think.

destinylens.io

Day 5 — Bonuses

DestinyLens is \$47.

Comes with \$405 in bonuses:

- Dream Life Planner PDF (\$27)
- Income Connection Setup Guide (\$47)
- 90-Day Sprint Template (\$97)
- Private Community Access (\$197/yr)
- Dream Life Visualization Audio (\$37)

But the real value? Knowing your exact daily number and watching your dashboard fill up.

destinylens.io

Day 6 — Urgency

Most people will never calculate their Dream Life Number.

They'll keep "manifesting" without metrics.

DestinyLens takes 2 minutes:

9 questions → your number → visual dashboard → daily tracking

Stop wishing. Start measuring.

destinylens.io

B) Paid Ad Assets

Short-form Hooks (5)

1. "What's your Dream Life Number? Mine is \$3,937/day."
 2. "Vision boards don't work. Dashboards do."
 3. "9 questions. Your exact daily income target. Visual progress tracking."
 4. "I stopped manifesting and started measuring. Here's what happened."
 5. "Your dream life has a price tag. Do you know your daily number?"
-

Long-form Ad

I used to have a vision board.

Mansion. Car. Travel. Freedom.

Then I calculated what it ACTUALLY costs per day: \$3,937.

Not \$100. Not \$500. \$3,937.

That's when I realized: manifestation without measurement is just wishing.

I built DestinyLens to fix that:

- ✓ 9-question calculator → your exact daily/weekly/monthly/yearly number
- ✓ Visual dashboard showing your dream life and progress
- ✓ Real-time income tracking (Stripe, PayPal, Shopify, manual)
- ✓ Daily progress percentage updated automatically

Your dream life isn't abstract. It has a number.

Calculate yours → destinylens.io

\$47 one-time. Includes \$405 in bonuses.

C) 7-Email Launch Sequence

Email 1 — Announcement

Subject: I built a dashboard for my dream life

Preview: 9 questions. Your exact number. Visual progress tracking.

Body:

I used to have a vision board.

Mansion. Car. Travel. Freedom.

Every morning I'd look at it and... hope.

Then I did the math.

My dream life costs \$3,937 per day.

Not per month. Per DAY.

That's \$118,110/month. \$1.4M/year.

I realized something: manifestation without measurement is just wishing.

So I built DestinyLens.

It's 3 things:

1. A calculator that shows your exact daily number in 9 questions
2. A visual dashboard representing your dream life
3. A daily tracking system for income progress

Mine says \$3,937/day.

What's yours?

→ Calculate your number: destinylens.io

Judy

P.S. — Includes \$405 in bonuses. But the real value is knowing your number.

Email 2 — Problem

Subject: Why vision boards don't work

Preview: They give you pictures. Not numbers.

Body:

Vision boards are beautiful.

But they have a fatal flaw:

No number to hit.

No daily target.

No scoreboard.

No "did I win today?"

Just... pictures. And hope.

Here's what actually works:

1. Calculate your exact daily income target
2. See it visually on a dashboard every day
3. Track your actual income against that target
4. Watch your progress percentage climb

That's what DestinyLens does.

9 questions → your number → visual dashboard → daily tracking

No more hoping. Start measuring.

→ destinylens.io

Judy

Email 3 — Solution

Subject: 9 questions. Your exact daily target.

Preview: Then watch your dashboard fill up.

Body:

DestinyLens works in 3 steps:

STEP 1: Calculate

9 questions about your dream life:

- Where do you live?
- What do you drive?
- How often do you travel?
- What support do you have?

Result: Your exact daily, weekly, monthly, yearly number.

STEP 2: Visualize

Your dream life represented on a dashboard:

- Progress gauge showing % to goal
- Income stream visualization
- Goal cards with images

STEP 3: Track

Connect income sources:

- Stripe

- PayPal
- Shopify
- Manual entry

Watch your daily progress update in real-time.

Mine shows 76% to my \$3,937/day target.

What's your number?

→ Calculate it now: destinylens.io

Judy

Email 4 — Mechanism

Subject: The psychology of daily targets

Preview: Your brain needs a number. Not a wish.

Body:

Your brain is a targeting machine.

Give it a number → it finds ways to hit it.

Give it a wish → it wanders.

That's why "I want to be rich" doesn't work.

But "I need \$287/day" works.

Because \$287/day is:

- \$35/hour (8-hour day)
- One client at \$287
- 10 sales at \$28.70
- 100 sales at \$2.87

Your brain can solve for that.

DestinyLens gives you that number.

Then shows you daily progress toward it.

Then connects your actual income to see if you're on track.

Measurement → motivation → momentum.

That's the system.

→ Get your number: destinylens.io

Judy

Email 5 — Objection

Subject: What if the number seems impossible?

Preview: Break it down. It's closer than you think.

Body:

"My number is \$5,000/day. That's impossible."

I hear this a lot.

Here's the reframe:

\$5,000/day = \$625/hour (8-hour day)

That's:

- 1 premium client at \$625/hour
- 5 clients at \$125/hour
- 10 clients at \$62.50/hour
- A \$97 product × 52 sales/day
- A \$497 product × 11 sales/day

Suddenly it's not impossible. It's math.

And the dashboard shows you exactly where you are vs. where you need to be.

Day 1: 5% to goal

Day 30: 23% to goal

Day 90: 61% to goal

Day 180: 100% to goal

Progress compounds when you can see it.

→ Calculate your number: destinylens.io

Judy

P.S. — Most people are closer than they think. One woman discovered she was already at 83% of her number.

Email 6 — Bonuses

Subject: \$405 in bonuses (today only)

Preview: The calculator is worth \$47. Everything else is free.

Body:

DestinyLens is \$47.

Here's what you get:

Total value: \$452

Your price: \$47

→ Get instant access: destinylens.io

Judy

Email 7 — Final Call

Subject: Last chance: DestinyLens

Preview: Stop wishing. Start measuring.

Body:

This is my final email about DestinyLens.

If you've been on the fence, here's the truth:

Your dream life has a price tag.
That price tag has a daily number.
That number changes everything.

Not someday.
Today.

9 questions.
2 minutes.
Your number.

Then a dashboard that tracks your progress every single day.

Stop manifesting.
Start measuring.

→ destinylens.io

After today, I'm moving on to other things.

But your number is waiting.

Judy

P.S. — \$47. One-time. Lifetime access. \$405 in bonuses. No subscriptions. No upsells. Just your number and your dashboard.
